

**Computer Classroom
Rosenau (SPH) 201**

CLASSROOM

ITS's Computer Classroom allows instructors to incorporate computers into the classroom environment. Rosenau 201 has a handheld projector remote with laser pointer as well as a wireless mouse.

WORKSTATIONS

The computer classrooms have student workstations and one instructor workstation. The system minimum specifications are:

- Lenovo Intel Duo 2 Core E6300 1.86 GHz NetVista M55e Desktop Computers
- Microsoft Windows XP Professional
- 1 GB Memory, 160GB Hard Drive
- CD-RW/DVD Combo Drive
- Extended Keyboard
- 17" Flat Monitor
- Optical Mouse

All workstations are connected to the campus network. A laser jet printer provides high-speed printing (students are allotted pages per semester, staff/faculty must pay per page by using their expense account on their OneCard).

SOFTWARE

Computer classroom resident software includes the Microsoft Office suite (Word, Excel, Access, and PowerPoint). Internet tools include clients for email, ftp, telnet and Internet browsing. Statistical applications, such as SAS and SPSS, are also installed on the computers. Please contact Classroom Hotline before classes begin for information about whether any software upgrades/changes were made in this room. If additional software is required for instruction, the department offering the course must provide licensed 32-bit versions. You may contact our office for more details. Please arrange to have software available to the Classroom Hotline (962-6702) at least 8 weeks prior to the start of the semester.

This classroom is reserved through Classroom Hotline. Please use form provided on scheduling information website under forms.
